

## Global Reach of StAR Initiative:

### Countries participating in StAR Events and Engagements

StAR has made a valuable contribution to the asset recovery capacities of beneficiary countries: It has facilitated cooperation among States and other actors, contributed to knowledge generation in the field, and made progress in raising awareness on the topic.

"The training I got [on] tracing hidden assets has helped me in recovery of stolen assets as well as proving offence of illicit enrichment in my country [...]."

*Our stakeholders say...*

"We have recovered stolen funds about US\$200,000 using the training techniques acquired from StAR activities. We have taken two government officials to court for illicit enrichment and living beyond their means."

"Guidance provided by StAR already has [been] placed in some policy papers in my country."

The StAR Initiative has engaged with more than 100 countries to promote the recovery of stolen assets
